CIT OF DAPHNE

RESOLUTION 2014 - 30

**RESOLUTION IN SUPPORT OF
THE D'OLIVE BAY FOREVER WILD NOMINATION**

WHEREAS, the Mobile and D'Olive Bays are considered exceptional for their historic, environmental and economic importance; and

WHEREAS, several parcels along Mobile and D'Olive Bays in Daphne that adjoin the City's existing Gator Alley Park and are owned by Friday Construction LLC., PPIN #067154 (15 acres), PPIN #066484 (72 acres), and PPIN # 066750 (11 acres), have been nominated for acquisition and preservation by the Forever Wild Land Trust Program; and

WHEREAS, these parcels consist of upland, wetland, and marsh areas which provide habitat for diverse native species and also aid in the protection of water quality; and

WHEREAS, the acquisition and preservation of Mobile Bay coastal access is important to the City of Daphne, and

WHEREAS the City would like to expand the Gator Alley Park to include access to these parcels and to add additional public access to Mobile Bay.

NOW, THEREFORE BE IT RESOLVED THAT THE CITY COUNCIL OF THE CITY OF DAPHNE endorses the D 'Olive Bay Forever Wild Nomination; and

BE IT FURTHER RESOLVED BY THE CITY COUNCIL OF THE CITY OF DAPHNE that the City of Daphne willingly, and in full support, agrees to assist in providing public access to the Forever Wild Parcels by expanding the Gator Alley Park to include the parcels. The City will seek funding to implement boardwalks through the parcels and once installed will provide maintenance and security of the improvements.

APPROVED AND ADOPTED BY THE CITY COUNCIL OF THE CITY OF DAPHNE, ALABAMA this _____ day of _____, 2014.

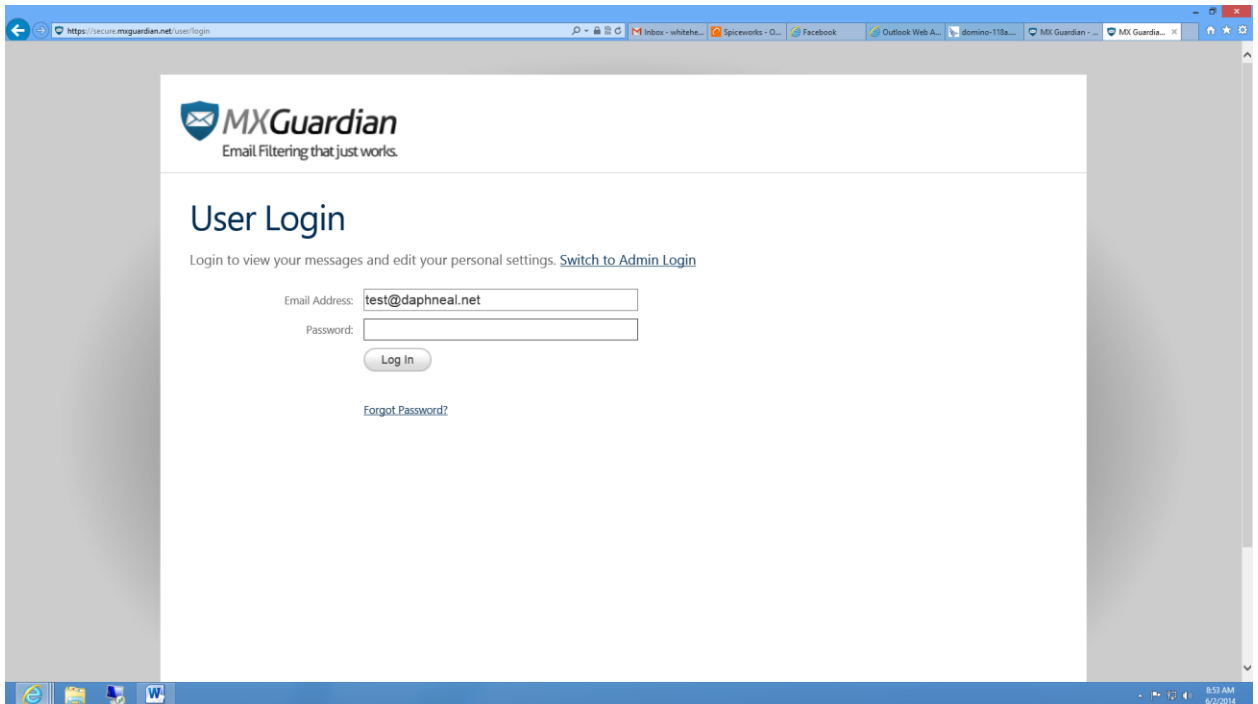

Dane Haygood, Mayor

ATTEST:

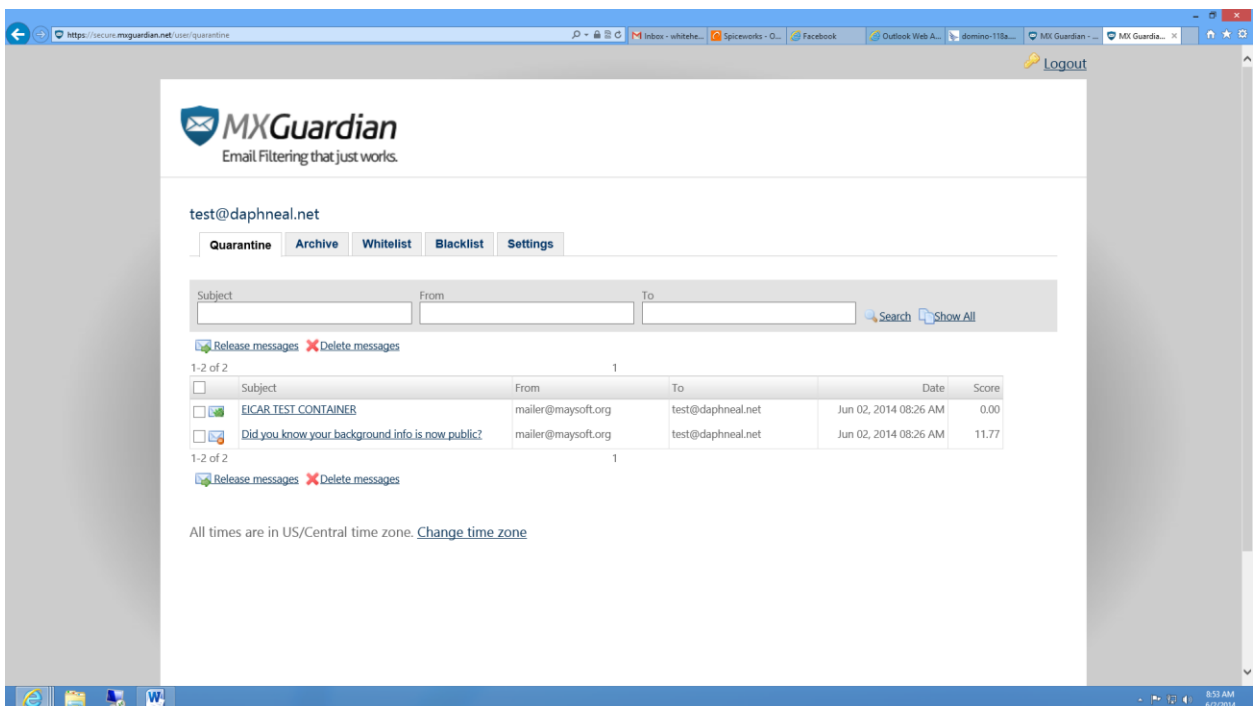

Rebecca A. Hayes, City Clerk

Spam Filter Screen Shot's With Questions & Answers

- 1.) Login to the following URL Address: <https://secure.mxguardian.net/USER/login>
When going to that URL you will see the following, like the Box below.

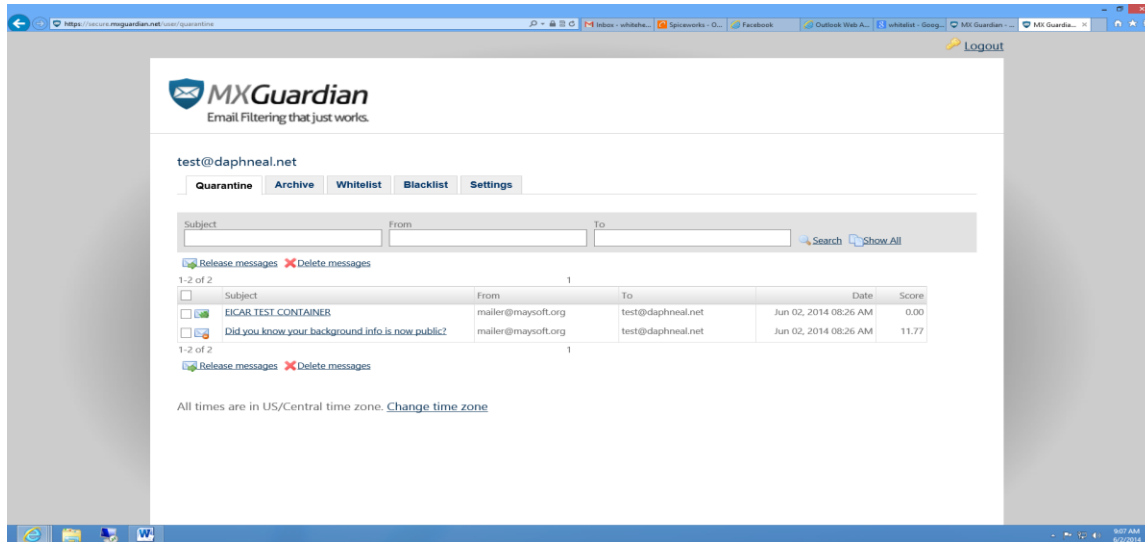

- 2.) Put in your Email Address and your email password and click login. After clicking login you should see the following like the box below.

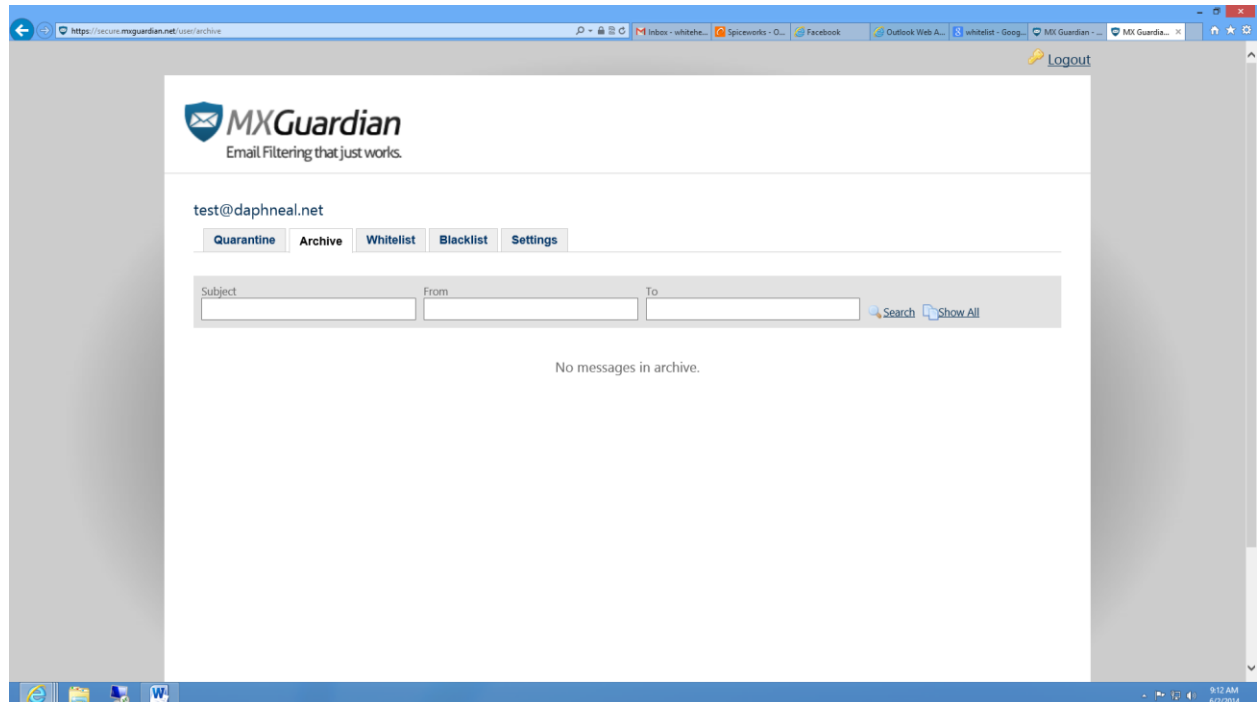

Spam Filter Screen Shot's With Questions & Answers

3.) Notice you have 5 Tabs going across right below your email address. They are as follows:

1. **Quarantine:** under this tab it will give you a list of objects, which is an email that was sent to you and were reported as spam. To retrieve this email you would check the box next to the email and then click on release messages. This will allow the email to return to your email box. Look at the box below and notice there are 2 emails's listed as quarantined. If for some reason you don't receive an email from someone, login and check here and check.

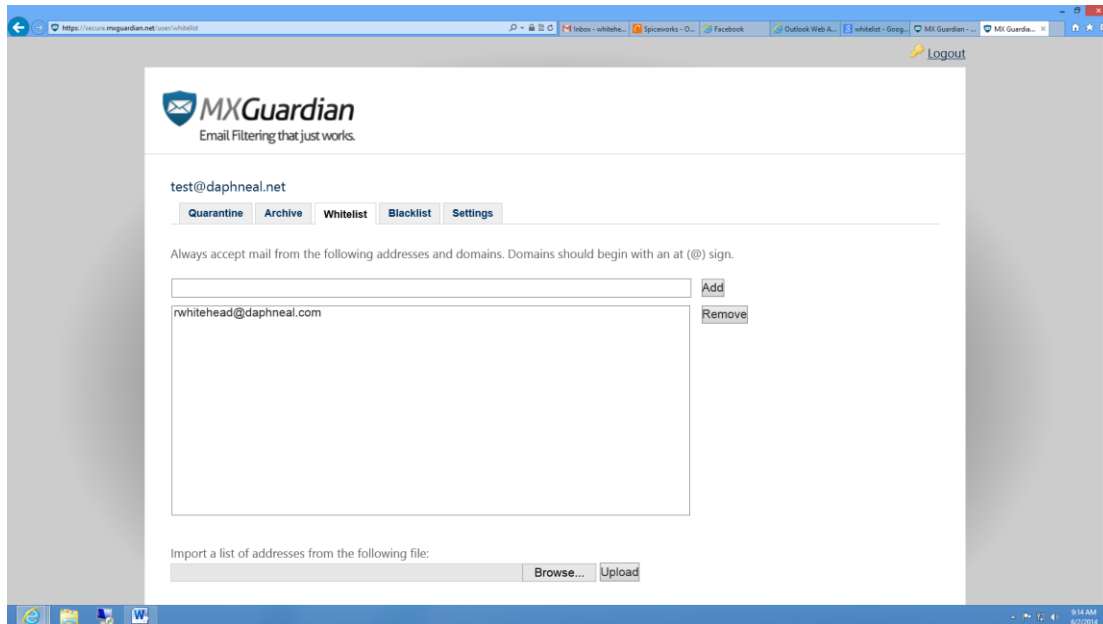

2. **Archive:** This lets you store messages that can be retrieved later.

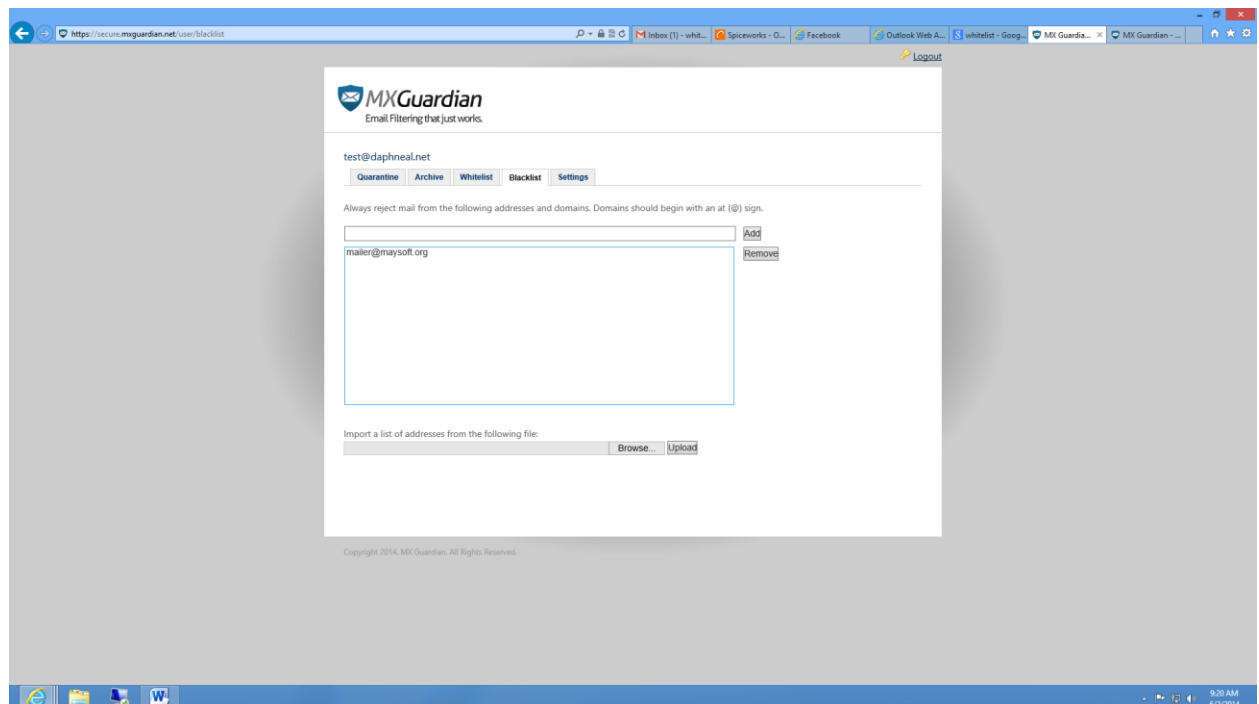

Spam Filter Screen Shot's With Questions & Answers

3. **Whitelist:** Is where you can put someone's email address in that you know is truly not spam and its being determined as spam. Example: Box below I put in my email address and clicked add. After I did that it shows that it was added and will be trusted.

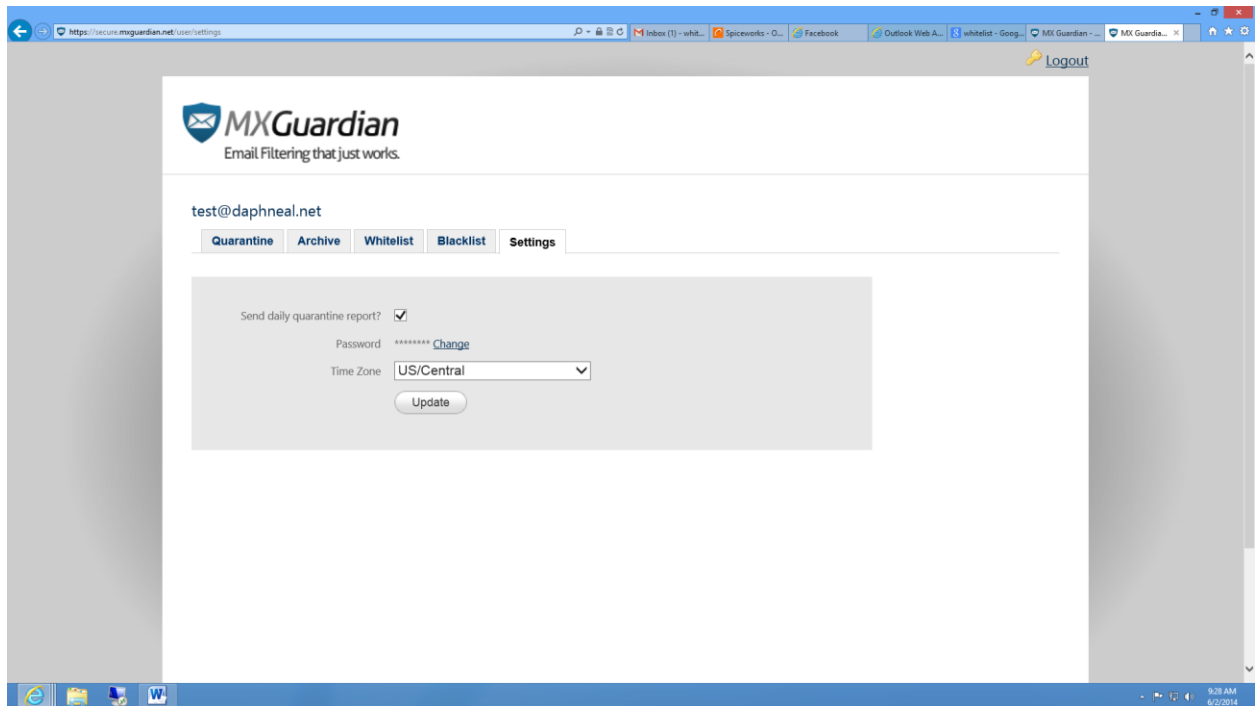

4. **Blacklist:** List of email's that have been ruled as spam. This would be used if spam emails have been received in your email that got through the spam filter. You will enter the email address in the Blacklist and next time it will be filtered and will not come through. Example box below: Notice that I added mailer@maysoft.org to the Blacklist. Now all emails should be blacklisted and blocked from that email address.

Spam Filter Screen Shot's With Questions & Answers

5. **Settings:** This is where you can have a daily quarantine report sent to you that will give you a report of emails that have been blocked. Also this is where you change your password for the spam filter login **not your email login**. Also keep in mind when changing your password I will not have it, but I will be able to reset it for you if you forget or have problems. You can also change your time zone if you want. Example Box below:

Spam Filter Screen Shot's With Questions & Answers

Q & A

Q: Will MxGuardian cause my messages to be delayed?

A: You will not notice any significant delay in the delivery of your messages. Most messages are received, processed, and sent back out within a matter of seconds.

Q: Does my outgoing mail need to go through MxGuardian, too?

A: No. It only filter's your incoming mail. Your outgoing mail will not travel through the Spam Filter.

Q: What happens to my junk mail?

A: There are several options. By default, junk mail is kept in quarantine on MxGuardian for 14 days. You have the ability to login and view quarantined messages at any time. You can release individual messages from the quarantine and they will be delivered immediately. Other options are to have junk mail deleted, or delivered with a modified subject line so your email client software can decide what to do with it.

Q: Can you control the level of filtering?

A: Yes. The easy to use, web-based control panel allows you to login and manage your account settings on a global level or for an individual user. You can setup whitelists and blacklists as well as adjust thresholds for detecting spam.

I'm planning on going live with this on Monday June 23rd. If you have any questions feel free to call or email me. Thanks
